

Rensselaer

Edmund F. Palermo, Ph.D.
Assistant Professor

DEPARTMENT OF MATERIALS SCIENCE
AND ENGINEERING

5/23/2017

The Palermo Lab at RPI is currently seeking a postdoctoral researcher in the area of advanced functional polymer synthesis. The position requires a Ph.D. in chemistry, materials science, polymer science, or a related discipline. Experience with a range of polymer synthesis and characterization techniques is required. Additional expertise in thin film fabrication and characterization, or evaluation of biological efficacy in biomaterials, is also desirable.

Evidence of scholarly achievement in the form of peer-reviewed publications, conference proceedings, and honors/awards will be considered. Excellent written and oral communication skills are essential. Demonstrated ability to mentor and advise undergraduate researchers is also critical.

Qualified candidates are encouraged to send a cover letter, C.V., unofficial transcripts, and a 2-page statement of research accomplishments and interests as a single pdf file via email to palere@rpi.edu.

Review of applications will begin immediately and will continue until the position is filled. An approximate start date in September 2017 is planned. The position is for 1 year with the possibility of an additional year extension, pending performance and availability of funds.
